

REMARKS

The Amendment:

The claims have been amended in the following manner:

Claims 1, 2 and 6 have been canceled.

Claims 3 and 4 have been amended to independent status to include all the subject matter limitations of their base claim.

Claims 5 and 6 have been amended to multiple claim dependency, each being amended to be dependent on claims 3 or 4.

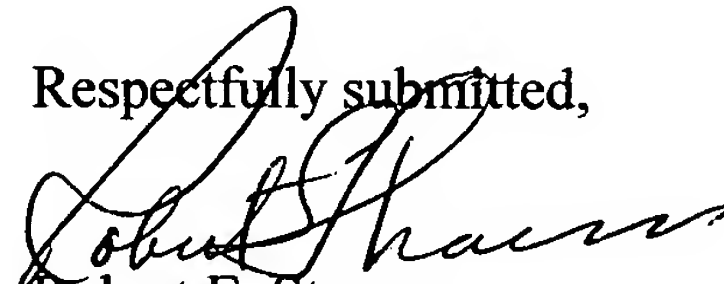

Claims 7 and 13 have been amended to independent status to include all the subject matter limitations of their base claim.

New claim 14 has been added to recite the subject matter which appears on page 9, lines 6-15 of the specification. The method recited by this claim is the use of the molding composition to repair a structurally defective molded part.

New claims 15-18 are multiple dependent claims which recite that the molding composition used in independent method claims 7, 13 and 14 also contains the components which were defined in originally dependent composition claim 3 (new claims 15); 4 (new claim 16); 5 (new claim 17) and 6 (new claim 18).

As the claims are now limited to the subject matter indicated to be allowable in the last Office action, it is believed that the claims are now in condition for final allowance, and favorable consideration is solicited.

Respectfully submitted,

Robert E. Strauss
